

For the climax after training – the new SMARTBALLS from FUN FACTORY

Training your pelvic muscles with the vaginal balls SMARTBALL UNO or SMARTBALLS DUO can prevent physical ailments. Plus, regular training is the next step to more fun in bed. The new balls are easier to insert, even more pleasant to use, work better and are even easier to clean. They are the perfect companion, are lots of fun, and according to the expert Dr. Verena Breitenbach are the perfect training tool for every woman's pelvic muscles.

Bremen, March 2013 – Why do even midwives and gynecologists recommend SMARTBALLS? Simply because they provide a playful way to get your pelvic muscles in shape. Training with them not only leads to more feeling during sex, it also actively prevents conditions like incontinence or a dropped uterus. Now even more interesting – FUN FACTORY has improved SMARTBALLS fourfold: the conically tapered balls make this handy fitness tool easier to insert, the improved rolling motion of the inner balls optimizes the training effect, a short retrieval band makes wearing it more pleasant, and finally the smooth surface made of velvety soft silicone makes cleaning them child's play!

Many women especially after childbirth or other physical strains suffer from a weakened pelvic floor. And often with unpleasant consequences. Dr. Verena Breitenbach, a gynecologist from Echingen explains, "The pelvic floor is the weakest spot for many women. Unfortunately, in comparison to other muscles, it is almost never trained. Most women don't know where it is and don't know how to flex it. If the pelvic muscles are too weak, it can lead to bladder incontinence, bowel incontinence, lower stomach pain and to a uterine condition." What can help is a targeted pelvic training, for example, one that is totally uncomplicated and fun with the new and improved SMARTBALLS from FUN FACTORY. "With the Smartballs women can simply and effectively strengthen their pelvic muscles and improve their sex lives," says Dr. Verena Breitenbach.

Little balls, big effect: SMARTBALLS are even better!

For an even more effective and comfortable training of the pelvic floor muscles FUN FACTORY has improved SMARTBALLS fourfold – from the new conically tapered balls for effortless insertion of the vaginal balls to the optimized rolling motion of the inner balls for the best possible training results. “We have improved our bestseller SMARTBALLS in and out because women's health, well-being and good fun are all things which are close to our heart,” explains Dirk Bauer, founder and Managing Director of FUN FACTORY, bringing up another positive effect of the SMARTBALLS in addition to its medical benefits. A trained pelvic floor leads to considerably more intense feelings of pleasure and gives a definite boost to experiencing sex. Even after just a few training sessions women feel the difference!

About FUN FACTORY Ltd:

FUN FACTORY, one of Europe's largest manufacturer of aesthetic and stylish love toys, has its headquarters in Bremen, right on the Weser river. From the first sketch, to the design and the technical implementation right up to completion of the toy – the trends and latest hits in the industry are and remain “Made in Germany” and come directly from this Hanseatic city. It was here that FUN FACTORY was founded in 1996 by Dirk Bauer and Michael Pahl. In 2003, the first subsidiary of FUN FACTORY opened in the USA. Today the company has over 120 employees and makes customers from all over the world happy with its products.
