

Harder, stronger, longer: BOOTIE RING

More FUN for HIM! FUN FACTORY's latest innovation is combining the bestselling BOOTIE S anal plug with a cock ring - for triple stimulation.

Bremen, May 2017. A stretchy silicone cock ring sized to fit most users for a harder, fuller erection plus the optimally molded anal plug for an intensive feeling of fullness, connected by a narrow base: BOOTIE RING takes pleasure to another level.

True to the motto „all good things come in threes“, BOOTIE RING not only provides for a harder erection, but also stimulates the prostate. As a bonus, the smooth silicone ridge that connects the plug and the ring

constantly massages the sensitive perineum – a highly sensitive area full of nerve endings and erectile tissue.

The prominent design – one of FUN FACTORYS trademarks – is not only a visual delight: With its flexible narrow base, BOOTIE RING is comfortable for extended wear, as the soft silicone fits perfectly between your cheeks. Even the smallest movement transfers directly to the toy, providing that distinct extra-portion of FUN. During hot solo play or sensual sex with a partner, whether hand job, blow job, masturbation or penetration – BOOTIE RING brings new sensations. For a more intense and extended climax!

About the FUN FACTORY GmbH:

FUN FACTORY, one of Europe's largest manufacturers of aesthetic and stylish silicone love toys, has its headquarters along the riverbanks of the Weser in Bremen, Germany. From the first sketch, to the design, technical implementation and completion of the toy – the trends and latest hits of the industry are and remain “Made in Germany“ and come directly from the Hansa city. Here in 1996, the FUN FACTORY GmbH was founded by Dirk Bauer and Michael Pahl. In 2003, the first subsidiary of FUN FACTORY opened in the USA. Today the company has over 150 employees worldwide, pleasing its customers on continents all over the world with its products.
