

## AMORINO – a modern love God promises passionate holidays

**A brand new MiniVIBRATOR delivers flights of passion never before experienced thanks to its unique stimulation band! The perfect gift for all those ready to reboot their sensuality today with romantic passion.**

**Bremen, 21.11.2013 – When Amour from ancient Rome arrives with bow and arrow, he pierces the heart and love blossoms. The modern-day cupid is armed with a different kind of accessory. Passionate moments flourish as soon as the flexible stimulation band joins forces with the sensitive curves of this little vibrator.**

The silky surface of both AMORINO's shaft and the band pleasure and inspire in unexpected ways. Working intimately with the shaft, the externally placed stimulation band brings finesse and even more excitement to the game, transporting users to seventh heaven.

The silicone stimulation band gently taut between the slightly rounded tip of the AMORINO and the side bud used for clitoral arousal endows heavenly magic. The band externally stimulates the Venus mound and the vaginal lips - a little detail ensuring exceptional levels of excitement. The neon band can be crossed or wrapped straight around the AMORINO, making exciting arousal diverse as well.

When using anally or vaginally the band is always removed. The gently curved tip easily finds the G and the P spot, while the curved bud at the lower end stimulates the clitoris or the anus.

In addition to its exciting and unique design the AMORINO scores again with totally trendy colors: pink and teal with a bright neon yellow stimulation band – a party for all the senses!

The inner qualities of the waterproof AMORINO also count – a powerful, quiet motor, a long-lasting battery and six rhythms and six intensity levels as well as a control unit with almost intuitive reactions. A key lock makes sure carrying it around remains discrete, so it's perfect for any bag or trip.

**About FUN FACTORY Ltd:**

FUN FACTORY, one of Europe's largest manufacturer of aesthetic and stylish love toys, has its headquarters in Bremen, right on the Weser river. From the first sketch, to the design and the technical implementation right up to completion of the toy – the trends and latest hits in the industry are and remain “Made in Germany“ and come directly from this Hanseatic city. It was here that FUN FACTORY was founded in 1996 by Dirk Bauer and Michael Pahl. In 2003, the first subsidiary of FUN FACTORY opened in the USA and in 2013 a branch in Spain. Today the company has over 120 employees and makes customers from all over the world happy with its products.
