Bremen, September 2014 – Quality has its price? FUN FACTORY proves the opposite with its new trio of vibrators – JOUPIE, JAZZIE and JAM. Just like their larger counterparts, these three newly released toys are made of high-quality silicone, which is not only odorless, but poses no danger to health and is hypo-allergenic. What's special about these battery-operated MiniVIBRATORS is that they come with an extremely attractive price tag.

“With JOUPIE, JAZZIE and JAM, we want to please people who value good quality but still watch their budget. Now they’ll be able to purchase a first-class product from FUN FACTORY,” says Dirk Bauer, Managing Director of the Bremen company. “This is made possible through the effective implementation of existing parts and the now 18-years’ experience the Bremen company has collected.”

Either individually or as a trio, these slender MiniVIBRATORS are also ideal as gifts on holidays, birthdays or for a bachelor or bachelorette party. Promising spontaneous love adventures – solo or with a partner – these waterproof beauties are ready for action! The slim silhouette of each one is especially attractive to women who find many vibrators on the market too big and who love the sensation of spot-on stimulation of the clitoris.

With FUN FACTORY, there is no cutting corners when it comes to functionality, however. The quality motor inside the SlimVIBES affords each of the three models with sensational power.

Whether they are enjoyed solo or during couples’ love games – JOUPIE, JAZZIE and JAM are sure to creation a sensation, causing screams of joy to emanate from their owner’s bedroom!
